Dear sir,

**Subject:**

To process the payment of Rs. 2500/- for degree fee and gown handling charges.

**Background:**

You must have observed that I have escaped/faced a number of issues with the people, system and processes for the last two weeks (of course, those were not originated in the last two weeks only, but if I search the roots there were poised to come out since long back ago).

Although I have escaped/cleared all those unistresting situations, I still have one small one bug remaining to be fixed.

**Problem:**

To come directly to the point, since I got the approval of no dues from all the depts far after the 5th August (last date for paying ₹2500/- graduation fee as per the following annexure <https://owncloud.iitd.ac.in/nextcloud/index.php/s/SfmZJQJSRoz8ipZ>), I haven't paid the graduation fee yet, and it is not payable going with the standard procedure given the document mentioned here(as there is no option of graduation fee payment in IITD revenue collect on SBI).

**Reason:**

As per my anlysis there are two reasns because which this problem has arisen:

1. There is some level of insincerety and/or frustration from my side for some reasonalable/unreasonable reasons.
2. There is some level of stpidity/iiresposibility from the members of community in which I live. i.e. my classmates have removed me from the class whatsapp group(becuase they don't want me to accept as the god/dictator of the class). I firmly believe that if something isn happening wrong with it is not entirely your fault, but it is the fault of you friends and coligues as well who
  - (a) didn't stop you when your about to commint such a mistake,
  - (b) didn't protect you from external accidental dangers when you were anaware.

**Solution:**

If you could let me know the another way to pay the graduation fee of ₹2500/- directly to the office/department/person to whom I have to, the problem will be solved easily(of course the issue with me is also that I don't knwo to whom to contact exactly in order to solve the problem, but I believe that I am asking with the right person)

**Acknowledment:**

Once again, thank you so much for reading the mail and considering to resolve one more peoblem.

Yours sincerely,  
Ratnesh

Dear friend:

This is an update regarding our Convocation tomorrow, Aug. 12, 2023.

Just to give you an idea, at this Convocation, we have in excess of three hundred and fifty PhD graduates, close to a thousand post graduates, and in excess of one thousand under graduates. The first graduates of our joint PhD degree with The University of Queensland will turn out, and so also our first graduates from Masters in Public Policy, Master of Science by Research in Materials Science and Engineering, and MTech programs in Electric Mobility, and Cyber Security. More information about the Convocation is available [here](#).

The Convocation starts at 9:30 am. Prof. Gagandeep Kang, the Chief Guest, will give her address around 10 am. Her speech, and the rest of the Convocation, can be watched live at

<https://youtube.com/live/FdmOyCK0ER0?feature=share>

Best regards,

Narayanan Kurur
